## The **Human Towers** of Barcelona

Estrella Damm Barcelona, for the first time in history, brings the 'Castellers de Vilafranca' (the world's best Human Towers team) to the UK. The Human Towers are a three hundred year old tradition of building multi-story human towers called "castells".

The Human Towers, with the spirit of endeavour and cooperation among its members, are traditionally constructed during town celebrations and festivals in Barcelona and other cities as they have been for over two hundred years.

Estrella Damm has supported this sport since it began. In 2010 UNESCO declared the Human Towers 'Intangible Cultural Heritage of Humanity'.

On April 19, 20 and 21, people will have the opportunity to see the Human Towers perform and witness the values they stand for, which will be reflected in their performances during the UK tour.

Castellers de Vilafranca performances in the UK:
